## STUDY VISIT, RIKSHOSPITALET, OSLO

5. november

Rikshospitalet in Oslo are having their kitchen rebuild to meet the demands for innovative concepts such as 'postrestaurants' in the wards and confectionery. Here is the opportunity to come and see these new facilities and the 'postrestaurants' and also to hear about the innovative ideas and concepts at Rikshospitalet.

At the tour we'll also hear about a unique research project focusing on blood diseases with a complex course of the disease and how a menu have been made for those patients. Patients struggling with poor condition of the mouth, in need of training their eating reflexes etc.
